Professional Summary

Senior Software Engineer with 7+ years of experience building high-performance web applications. Deep expertise in React, Next.js, TypeScript, and frontend architecture, with hands-on experience integrating LLMs and AI APIs into production applications. Proven track record in web performance optimization, technical SEO, cross-functional collaboration, and delivering data-driven features at scale. Passionate about leveraging AI to automate workflows and enhance user experience.

Technical Skills

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Flexbox, Redux, Responsive Design, Tailwind CSS, SASS, Server-Side Rendering (SSR), SSG, Jest, Cypress, react-testing-library, Percy, useMemo, useCallback, React.memo, virtualisation, Vite,

AI & LLM Integration: OpenAI API, LangChain, Pinecone, Retrieval-Augmented Generation (RAG), Prompt Engineering, Generative AI, AI Agents, AI-powered automation, LLM integration, Anthropic

Backend & Infrastructure: Node.js, Python, GraphQL, REST APIs, Kafka, SQS, Redis, PostgreSQL, S3, Docker, CI/CD (GitHub Actions), AWS, Vercel, Cloudflare, Git, Github, Monorepo npm workspaces, Microfrontends, tRPC

Performance & Quality: Core Web Vitals (CWV), Lighthouse, Code Splitting, Bundle Optimization, Web Performance Optimization, A/B Testing, Accessibility (WCAG), Technical SEO

Tools: Agile, Jira, Datadog, Slack, Code Reviews, Technical Specifications, Cross-functional Collaboration

Work Experience

Senior Frontend Engineer | Consultant — Mar 2026 – Present

Farmacia Duret (Ongoing)

Building Farmacia Duret's web platform. Catalog content and online ordering flow for an independent pharmacy in Buenos Aires, routing customer orders directly to WhatsApp. Built with Next.js and TypeScript, deployed to Cloudflare Workers. Integrated Meta's WhatsApp Cloud API for templated order notifications, backed by Contentful for catalog management and a Vitest + Playwright test suite. Separate staff back-office for order management, behind Cloudflare Access.

Senior Software Engineer | Gartner Oct 2021 – Dec 2025

Getapp.com

Owned frontend architecture for a B2B software discovery platform (Next.js, TypeScript, GraphQL), delivering CWV optimizations and a design system migration from Material UI to custom components in SASS. Drove technical SEO and web performance fixing structural issues that were penalizing organic traffic. Partnered with product and design on rapid experimentation (LaunchDarkly A/B

testing), proactively proposing high-impact, low-effort technical improvements aligned with business goals. Experimented with AI-generated review summaries as part of the organic growth strategy.

AI Chatbot MVP

Delivered an end-to-end AI chatbot proof-of-concept from product ideation to full demo rollout. Built a Retrieval-Augmented Generation (RAG) using OpenAI API, Pinecone vector database, and LangChain/LangGraph for orchestration, with a Vite-based frontend interface and Backend in Python

Contact Management System — Cross-Platform Marketing Tool

Partnered with marketing to build a system consolidating customer profiles from Capterra, SoftwareAdvice, and GetApp, enabling targeted campaigns for high-value users
Worked across the full stack with event-driven architecture (Kafka, SQS), PostgreSQL, Docker, and CI/CD pipelines (GitHub Actions)

Front End Developer | [Nimble.la](https://nimble.la) Sep. 2018 - Aug. 2021

Update.AI (Desktop Application & Dashboard):

Architected and developed an Electron application using TypeScript, integrated as a plugin for a major video conferencing provider to capture real-time audio streams. Led the implementation of the insights dashboard, building a high-performance interface to visualize meeting transcriptions, generate AI-powered summaries, and display actionable insights.

Hibu (Mobile Application):

Built the initial React Native application from scratch, allowing users to access the digital marketing platform's data on mobile devices. Handled the entire deployment process, successfully launching the app on both the Apple App Store and Google Play Store.

Education

Degree in Engineering Information Systems at National Technological University ("Universidad Tecnológica Nacional" - UTN) – Rosario, Argentina

Languages

Spanish
English
